Dr. Page and Dr. Brin,

In my capacity as a victim of a crime, perpetuated by one of your customers, I am writing you with a victim's request to turn over to the law firms of Baker & McKenzie and Skadden, Arps, Slate, Meagher & Flom, the customer records of you (1) Gmail customer and (2) Google Android phone customer, associated with the email [ultimatebrainstormelite@gmail.com](mailto:ultimatebrainstormelite@gmail.com). We have sent similar requests to Yahoo, Hotmail and the other usual websites. I assume the district attorneys, in multiple state and country jurisdictions, will issue their own subpoena to you.

To prove to you that I have justifiable cause to file this complaint and request I am copying my attacker in this email and you via bcc: (blind carbon copy).

Your customer, has been sending me (a) sexually harassing and life-threatening emails (b) providing proof of stalking me, friends and fellow employees and (c) providing proof of having hacked into my computer and online social networks. They may have also called me. The police is investigating this.

This criminal activity, including all evidence has already been turned over to the police and a "John/Jane Doe" arrest warrant is being issued linked to your customer that is linked to [ultimatebrainstormelite@gmail.com](mailto:ultimatebrainstormelite@gmail.com)

The police are pursuing a motive for the crime. This crime has been unprovoked and I do not know anyone associated with that email, or the weblink they mentioned in their contact. Hence, the police has taken the authority to label this a hate crime, aggravated assault, attempted rape and possibly attempted murder in retaliation to me for something : <http://www.forbes.com/sites/matthewherper/2015/05/07/how-fake-news-articles-and-lies-about-billionaires-were-used-to-market-an-iffy-dietary-supplement/>

I look forward to your help in identifying, apprehending and stopping this criminal from attacking other women and people in general, forever. Thank you.
